

GBS Zero.230 calibre

£27,995^{Inc}

Overview:

If you are looking for Pure Exhilarating Performance along with Style & Finesse then the Zero.230 Calibre is the car for you. With its unmistakable bark from the ATR Throttle body upgrade as standard fitment on this Model it leaves you without doubt of its intentions as a pure thoroughbred driving machine. The car consists of a steel Multi Tube space frame with fully independent suspension all around. This car benefits from the full ATR upgrade Handling Pack & LSD as standard fitment. There is also a Team Dynamics wheel Upgrade fitted as standard. Each car is meticulously hand crafted to an individual's specification by only the best skilled and passionate individuals looking to deliver engineering excellence.

Whether you take your GBS Zero.230 Calibre around the Track or Europe, each journey will deliver a breath taking experience for you and your passenger.

Performance:

The Zero.230 Calibre is powered by a 2.5Ltr normally aspirated Ford Duratec engine which offers 230Bhp as standard fitted with a set of ATR Throttle bodies and an engine re-map Using a Life ECU which is future proof for further engine upgrades if required. With 400+ Bhp per Tonne this car can propel you from 0-60 in 3.5 seconds. With the ATR Shocks and LSD fitted as standard this car corner's like it is on rails. The car has unbelievable levels of grip & balance, handling in a very controlled & precise manner, resulting in a drive of your life.

Looks:

The external body work of the car is very much the same throughout our range and is a mix of GRP & traditional Aluminium Fitted over a Steel space framed chassis all of which is manufactured by GBS in our very own Factory. We also offer a range of ATR Carbon Fibre up-grades manufactured by US using the very latest infusion techniques developed in house. This in turn makes the car look simply Stunning.

Feel:

The interior is finished to the highest standard and has to be one of the best you will find in a bespoke built car of this type. Not only are the seats extremely comfortable but coupled with the driving position along with the steering makes for almost perfect ergonomics. Two body widths are also available depending on Grand Touring or Track usage. Once you have attended your seat fitting the dashboard layout is tailored to best suit your needs with only the best Smiths Flight Gauges used. This we feel is a must as the Gauges truly represent the era of this type of car.
